CABLE DISPATCHES.

Echoes of the Great Storm in Europe.

A GREAT MANY LIVES LOST.

Full Particulars of the Wreck of the Steamship Mirama, of Liverpool—Parnell Figuring in Another Scandal. Latest Order to the Russian Jews. Other Foreign News.

LONDON, March 14.—The steamship which was wrecked off Start Point, near Dartmouth, on Monday last during the severe gale which swept over the southern part of England, was the Mirama, of Liverpool. When the steamer struck upon the reef off the point the crew took to the boats in an effort to reach the shore, though the heavy sea prevailing and the huge breakers rolling upon the coast made such an attempt one of pure desperation.

One of the boats, containing the steamer's officers, was struck by a heavy sea and foundered and all the officers were drowned. The second boat, containing the sailors and firemen, capsized twice and twice righted herself. Each time she went over a number of men were drowned, while others succeeded in re-entering the boat, which was almost entirely filled with water, but kept afloat by reason of her water-tight compartments.

Eventually four Swedish seamen managed to reach the shore, but one of them died from exhaustion soon after being hauled out of the surf. The three survivors were terribly battered by the heavy surf and were half dead when they were pulled out of the water.

Parnell Visits Mrs. O'Shea.

LONDON, March 14.—It appears that Parnell mysteriously departed from London on Wednesday, and traveled to Brighton, where he was the guest of Mrs. O'Shea at Walsingham terrace. Last night he appeared in the house of commons, remaining two hours, when he went back again to Brighton. During Mr. Parnell's absence from Brighton a messenger boy has called frequently at the house of commons for all letters directed to Mr. Parnell, and, it is said, that in answer to official inquiries, the boy has replied that Mrs. O'Shea sent him.

The McCarthyites say that some of Parnell's followers have said that if Mr. Parnell continues to neglect Ireland for Mrs. O'Shea, the Irish cause will be completely ruined. The names of Parnellites making this statement have not been given.

The absence of Mr. Parnell and other Irish members of both factions, during Balfour's graphic narrative of Irish distress, on Thursday night, is said to have caused much surprise in Ireland.

Murdered on a Train.

MADRID, March 14.—The woman found murdered in a railway at Seville Wednesday was a French dressmaker. The post mortem examination showed that she had been repeatedly stabbed with a knife, and that her throat had been cut. The assassins were surprised at their work by the stoppage of the train, and jumped out, dropping some bank notes and gold, which were afterward found covered with blood. Three men were arrested on suspicion of being the murderers.

Last evening a robber entered a first-class carriage on a train at Saragossa, and with a knife stabbed one of the passengers, the latter general of telegraphs. The latter overpowered the assassin and threw him off the train. The man was afterward captured in a dying condition.

Latest from South America.

LONDON, March 14.—A Buenos Ayres dispatch says that the family of Balmaceda are safe in the Argentine Republic. The latest advices from Santiago were to the effect that the city, in which quiet had been maintained by severe martial law, was beginning to be turbulent, owing to the reported successes of the insurgents.

An attempt to hold an election on last Sunday was a complete failure, only the government officials and employees taking part, the people generally holding aloof convinced that the old regime in Chili is coming to an end. The insurgents continue to be abundantly supplied with money, and pay for all provisions and private property taken by them.

The Latest Order to the Jews.

LONDON, March 14.—A St. Petersburg dispatch says that the holy synod of the Russian church has issued an order that all converted Jews shall attend public worship of the orthodox faith at least once in every week, or be deemed to have relapsed into Judaism. They are also in every instance to make a recantation of their Jewish belief before baptism, and to be kept on probation at least six months. All those who relapse must be reported to the civil authorities for punishment.

The Snow Melting.

LONDON, March 14.—The thaw throughout England is causing disastrous floods. Many places are still snowed up and some villages are short of food supplies. Passengers on snowed-up trains are being released after some severe experiences.

Napoleon Believed Dying.

ROME, March 14.—Prince Napoleon passed a bad night. He is delirious and his death is believed to be imminent. King Humbert visited the prince at 6 o'clock this morning and stayed two hours by the dying man's bedside.

Negroes Revolt.

ZANZIBAR, March 14.—The negroes of the Comoro islands have revolted and declared themselves free. The sultan of the islands has fled.

DRUMMERS' DEADLY FEUD.

One Louisville Salesman Gets His Death Blow from Another.

COLUMBUS, Ind., March 14.—When the passenger train from the south on the Louisville division reached the city Thursday evening, two of the passengers left the train and walked to the depot platform. The bystanders noticed one of the men strike the other with a small hand valise, when the man struck immediately shot his assailant, the ball entering the abdomen.

The man who did the shooting was immediately arrested. His name is L. Goldsmith, a traveling agent for a firm of liquor dealers in Louisville. The wounded man is R. T. Skillman who represents a firm of mineral water manufacturers of Louisville. Skillman was taken to the hospital, where the surgeons pronounced his wound fatal. Both men are married and live in Louisville. Skillman having three small children. Goldsmith refuses to talk about the cause of the quarrel, but says he acted in self-defense. Skillman was able to talk some, after being informed that he would die, and made an a-t-mortem statement, saying that there had been an old feud between them.

The pistol used was a 38-calibre. The ball entered the right breast, even with the heart, and glanced downward, entering the cavity of the bowels and punctured them.

Skillman's wife arrived here yesterday. Before going to the city hospital the half-crazed wife was informed that it was her husband's request that if he was alive when she reached here that she come into his presence cheerfully and not crying. Bravely she wiped away the tears, and the meeting of the two caused stout men to weep like children, but the faithful wife smothered her grief. Skillman is sinking rapidly. Goldsmith has been refused bail, and his examination is set down for Wednesday of next week.

FISHERY TROUBLES.

Some Prospects of the Dispute Being Settled by Arbitration.

WASHINGTON, March 14.—Sir Julian Pauncefote, the British minister, was at the state department yesterday in consultation with Secretary Blaine. It is believed that their conference related to preliminary arrangements for a mutual understanding as to the questions to be submitted for arbitration in the Behring sea questions.

On the return of Attorney General Miller to Washington from his trip to the Chickamauga battle field, he will probably be consulted concerning future policy in the Sayward case, which the British government brought before the supreme court of the United States in order to secure a decision of that body on the act prohibiting the killing of fur seal in Behring sea.

The answer of the United States district court of Alaska is not due until the second Monday in April, and it is probable that an endeavor will be made in the meantime to effect some sort of a compromise so that arbitrators, and not the supreme court, may render the first decision.

SNOW SLIDE VICTIMS.

Three More Men Buried Under a Hundred Feet of Snow.

DENVER, March 14.—A special from Crested Butte, Col., to The Republican says: Three more snow slide victims are reported. M. G. Celler, Patrick Murphy and Jack Griffen, who have been at work on the Jacob Strader mine, are buried beneath the snow. The slide is over a half a mile wide and it would seem that the whole mountain has come down, filling the basin with snow probably a hundred feet deep.

The place has been considered very dangerous, so much so that since the storm no one has dared to venture up there until Thursday, when three men went to see if their fellow-miners were safe. They found no signs of a cabin and the tunnel entrance was entirely covered. By tunneling through the snow for thirty feet they came to the cabin which was mashed in by snow. It is the general belief that the poor fellows had become alarmed and started to leave and were caught in their attempt to escape.

Thousands on the Verge of Starvation.

CHICAGO, March 14.—A meeting of editors of agricultural papers was held Thursday in the Rand-McNally building for the purpose of listening to Mrs. H. M. Blackman, of Nebraska, and A. A. Paine, of Dakota, delegates to solicit help for the destitute population of the arid districts of South Dakota, Kansas and Nebraska. Most of the afternoon was spent in hearing the pitiful statements of the delegates. Another meeting to devise relief will be held at the Grand Pacific hotel.

Kilrain Knocks Out George Godfrey.

SAN FRANCISCO, March 14.—Fight between Jake Kilrain, of Baltimore, and George Godfrey, of Boston, for \$5,000, \$4,500 to the winner, drew a large but very select crowd to the California Athletic club last night. Both men showed up in fine form. Kilrain weighed 192 and Godfrey 174. Kilrain's seconds were Jim Hall and Muldoon. Godfrey was seconded by Peter Jackson and Frank Steele, of Boston. After fighting forty-four rounds the fight was given to Kilrain.

Isaac Smith Respired for the Ninth Time.

COLUMBUS, O., March 14.—For the ninth time Isaac Smith, under sentence of death for the murder of Stephen Skidmore in 1888, was respited last night by Governor Campbell. The execution is fixed now for May 28. This is to enable the legislature to consider the special bill now pending concerning Smith's case. He would have been executed next Friday morning.

COLUMBUS, O., March 14.—Melancholia, superinduced by divorce proceedings instituted by her husband, was the cause of Mrs. Elizabeth James, wife of a Congregational minister, committing suicide by hanging yesterday.

STORM DAMAGES.

Pittsburg Visited by a Heavy Gale of Wind.

GREAT DESTRUCTION DONE.

A Number of Buildings Blown Down and Several People Injured—The Wind Reached a Velocity of Forty-Three Miles Per Hour—Storm Damages Elsewhere.

PITTSBURG, March 14.—At 11 o'clock yesterday morning a gale of wind reaching the city of over forty miles an hour passed over the city causing considerable damage to property and injury to several persons. The signal office reports that for a few minutes a velocity of forty-three miles per hour—the highest ever known in this city, was experienced.

The walls of the Germania tank and Weldon buildings, the scene of Wednesday's fire, crumbled beneath the fury of the wind, and a large section of the bank wall fell upon the roof of the Merchants' and Manufacturers' insurance company's building, adjoining, breaking through the roof and three floors of the latter building. The occupants barely escaped with their lives.

Mill and house chimneys all over both cities are reported damaged or blown down. Several of the largest plate glass windows in the city were blown out; that at G. W. Biggs & Company's jewelry store fell on and severely injured several persons.

In the Chartiers oil field, near the city, the wind blew over a large number of derricks, causing considerable damage to oil wells.

Throughout the Southwest.

ST. LOUIS, March 14.—Special dispatches from a dozen different points in Texas indicate that the heaviest snow in that state for three years fell Thursday. Denison reports one of the most violent storms which has ever visited that section. Missouri, Kansas and Texas trainmen, who arrived there from the Indian territory, say that the fall of snow in the territory was unprecedented. All trains are badly delayed.

At Paris, the ground is covered to a depth of six inches. Great fear is apprehended that the fruit crop will be entirely destroyed.

Several points in Arkansas also report an unprecedented heavy snow storm.

Snow Storm in Cleveland.

CLEVELAND, March 14.—A driving snow storm struck this city at an early hour yesterday morning. The electric street railroads were seriously crippled. Traffic was suspended for several hours on nearly all East Cleveland lines east of Wilson avenue and on the Central avenue lines horses were used east of Kennard street. Every trolley line in the city was affected more or less. It is the first severe test the electric system has had in the two years it has been in operation here.

At Memphis, Tennessee.

MEMPHIS, March 14.—A northerly wind and a cloudy sky constituted the weather yesterday until about 4 o'clock, when a fine cold rain began to fall. By 6:30 o'clock the rain had changed to sleet, and the ground was soon covered with an icy slush. About 10 o'clock it began snowing, and a veritable blizzard set in, which kept up until 1 o'clock, when the snow ceased. No storm as severe as this has occurred in this region for many years.

Many People Injured.

JEANETTE, Pa., March 14.—At 11:30 o'clock yesterday the wind storm blew down the east wall at the Fort Pitt glass works and many persons were injured by falling timber and bricks. Daniel McCann was badly bruised and had his leg broken. Joseph Morgan one eye out and disabled. Harry Campbell arm broken. Thomas Linhan bruised and James Park seriously injured. Many others were more or less injured.

Damage Along the Coast.

ASBURY PARK, N. J., March 14.—Thursday's storm did much damage along the coast. The tides were unusually high and many washouts occurred at Long Branch, Seabright and Galilee. No wrecks are reported.

CHIEF HENNESSY'S MURDERERS.

It Now Looks as if the Suspected Men Would Get Free.

NEW ORLEANS, March 14.—The trial of nine Cillians for the assassination of Chief of Police Hennessy at 11:25 o'clock on the night of Oct. 15, which occupied the time of Judge Baker's division of the criminal district court since the 16th of February, was concluded yesterday afternoon, the jury bringing in a verdict of not guilty as to six of the accused, and failed to agree upon a verdict as to the other three. When the jury handed in their verdict Judge Baker looked at it for some moments before he handed it over to Minute Clerk Creven.

There was apprehensive silence while these preliminaries were going on. The prisoners stood up and there was a look of infinite woe pictured on the face of Machea and some of the others. Of course Matranga and Incardoni were disinterested. They knew they had been saved and their only interest in the matter was to see that their friends or partners escaped the fate which had threatened them for so long. The boy Marchew showed no signs of emotion. The jury looked more concerned than anyone in the room. Their faces were deathly pale and showed plainly the effect of their long deliberations.

Chief Clerk Screen read the verdict in a firm voice. As the verdict was read there was an audible expression of surprise and dissatisfaction. Judge Baker immediately discharged the jury-men and ordered the prisoners remanded as there was still another charge against them. The court then adjourned. When the jury-men left the courtroom they were surrounded by

reporters but none of them would discuss the case or how they reached the verdict. They kept together until they reached Lafayette square, where they were jeered at by a crowd who had already learned of the verdict.

SPECIAL WEATHER BULLETIN.

The Signal Office Issues the Following Relating to the Mississippi Floods.

WASHINGTON, March 14.—The signal office has issued the following special weather bulletin relating to floods in the Mississippi valley: In view of the great uneasiness in the Mississippi valley, in connection with the present high water, the signal office puts forth the following bulletin:

The river at Cairo stands forty-four feet and seven tenths above low water. It is assumed that the rises from the Ohio, Cumberland, and Tennessee rivers will cause the stage at Cairo to approximate forty-seven feet by March 15. The long continued high stage at Cairo makes it certain that a large amount of water has passed into the St. Francis basin.

If no more than the average rainfall occurs during the next thirty days the crest of the present high water from Memphis to Vicksburg will occur within a week, reaching from present prospects about forty-four feet at Helena and forty-seven tenths feet at Vicksburg. Unless the rainfalls for the coming thirty days are excessive in the drainage basin above Memphis, it is certain that succeeding high waters will not exceed those above named, in view of the present great rate of discharge of the River at Helena.

While the late heavy rains in the drainage basin of the central Mississippi have caused rapid rises, yet the outlook is favorable unless, as has been stated before, these excessive rains should continue for a prolonged period. The rainfall in the Mississippi drainage basin for at least the next four days will be considerably below the average.

RAILROAD ARBITRATORS.

Value of the Stock of the Pittsburg, Cincinnati and St. Louis Road.

STUBENVILLE, O., March 14.—The arbitrators in the case of Robert Sherrard vs. the Pittsburg, Cincinnati, Chicago and St. Louis railway to fix the valuation of his stock in the Pittsburg, Cincinnati and St. Louis Railway company, have rendered their decision.

The arbitrators were appointed last July under the act of last winter authorizing stockholders in a proposed consolidation of railway companies to withdraw and have the value of their stock fixed by arbitration, in case an agreement cannot be made with the consolidated company. Their finding is that the actual value of their stock is \$60 per share, and they award Mr. Sherrard \$177,240 on condition that he shall return to the company the 2,950 shares of stock held by him.

The decision affects the rights of numerous stockholders of the Pittsburg, Cincinnati and St. Louis railroad, among them the city of Steubenville, whose 1,125 shares on this basis are worth \$67,500. Under the statute the defendants have a right to appeal to a jury before the court of common pleas, and whether there will be further litigation is yet uncertain.

A Long Contest Promised.

SACRAMENTO, March 14.—The ballot in the legislature yesterday for United States senator resulted: Estee, 34; DeYoung, 24; Felton, 15; Blanchard, 11; Johnston, 4; Welmore, 1. The Democrats gave 26 votes to Shanahan. The gain of 3 by Estee has greatly encouraged his friends. DeYoung held his own while Felton lost 1 vote. The situation has not changed however and balloting bids fair to continue into next week.

Entombed Miners Recovering.

JEANSVILLE, Pa., March 14.—The condition of the four rescued miners is such that the physician has allowed them all to get out of bed for the first time. Big Jo's eyes are considerably swollen and highly inflamed, and it is with difficulty that he can see. Franko is badly troubled with rheumatism. Tomaskasy and Berno are doing well, but none of the men have sufficient strength to do any walking.

An Officer Arrested.

FINDLAY, O., March 14.—Isaac Myerice, a member of the Deshler police force, was arrested here last night and is now in the city prison awaiting trial on a charge of assaulting and threatening to kill Miss Ella Dick in this city on Wednesday evening. When arrested he was in full uniform. There is something mysterious about the charge and arrest.

Stealing Cattle by the Thousands.

SPOKANE FALLS, Wash., March 14.—Settlers in Douglas and Lincoln counties are said to be greatly alarmed at raids of organized bands of cattle and horse thieves. A prominent stock man of that section says that no less than 12,000 head of cattle have been stolen in the past year besides several hundred head of horses.

Newfoundlanders Starving and Freezing.

HALIFAX, N. S., March 14.—A telegram from Bonavista, N. F., says that, owing to the failure of the shore fishery, there are numerous people there in a deplorable condition, hungry and almost naked. Some of them are suffering from the dread disease, diphtheria.

Italian Bark Wrecked.

LEWES, Del., March 14.—The Italian bark, Princess Marguerite, from Plymouth to Philadelphia, was wrecked on Hen and chicken shoals Thursday night. The crew escaped in boats to the breakwater.

Will Fight for Money.

NEW YORK, March 14.—A cablegram from London to The Police Gazette says that Pritchard has issued a challenge to Bob Fitzsimmons to fight him for The Police Gazette championship belt in any club in England or America that offers the largest purse.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & McCARTHY,
Proprietors.

SATURDAY, MARCH 14, 1891.

SENATOR PALMER of Illinois was born in Scott County, Kentucky, and his recent race and victory show he's a thoroughbred.

THE editor of the Covington Post doesn't keep posted on Kentucky journalism. He says the Gazette is the only paper published now at Flemingsburg, that its only competitor quit two years ago. Brother Duley will object to be disposed of in this summary manner.

THE New York Tribune, the National organ of the G. O. P., intimates that the next Congress will be compelled "to increase taxation in order to prevent National bankruptcy." You can judge from this what condition the treasury was left in by the late Republican Congress.

THE Copyright Act is a long step toward justice—justice modified by some compromises—and a step that will never be retraced. When the reward of honor among its champions on the floor of Congress shall be made Hon. W. C. P. Breckinridge, of Kentucky, will be in a front place.—Philadelphia Record.

ANOTHER giddy girl has come to grief through a "personal" in the Cincinnati Enquirer. She is a Miss Kirker, and her home is in Adams County, Ohio. The "personal" led to a correspondence, and that led to a marriage. "So romantic!" But when her husband was arrested and taken to Missouri to answer a charge of counterfeiting, it took all the romance out of her.

The People Are Not Fools.

In his speech at the Federal Club Mr. Depew referred to the overthrow of his party in the November elections as "the triumph of the liar in American politics," says the New York World.

"Other Republican speakers and many journals of that party are constantly attributing the defeat of their party to a false cry that the McKinley tariff increased prices.

"But in explaining that defeat just after the elections Speaker Reed said: 'The shopping women did it.'

"Did the 'shopping women' become indignant over the prices quoted in Democratic newspapers, or the prices charged them at the shops?

"The American people are not gullible fools. They know the prices, actual and relative, of the things which they buy. The prices of dutiable goods quoted in Democratic and Independent newspapers last October were prices current, taken from commercial circulars and the advertisements of merchants. They were open to challenge and exposure. No successful denial of them was ever made. Prices did advance, as was inevitable under the law, and as 'the shopping women' found.

"If the purpose of the increased duties was not to compel importers to charge higher prices and to enable domestic producers to do so, no one has ever told what its object was. This was, at least, its effect. This is the logic of protection. "Will Mr. Depew hold that President Harrison and Mr. McKinley misunderstood the object and the effect of this law when they expressed upon the stump their contempt for 'cheap' things and defended dearness as the sign and promise of prosperity?

"The flattest lying that was done in the campaign of 1890 was by those who said that higher taxes would produce higher wages, and that a trust-fostering tariff is in the interest of the American people."

Stock and Farm News

Farmers of the Green River country will plant a larger acreage of tobacco this year than ever before.

The Louisville tobacco market was dull yesterday, with no special promise of improvement. The offerings, however, were of an inferior character. There is a steady demand for good tobacco.

It is usually considered best to disturb strawberry plants as little as possible in the spring of their fruiting, beyond hand-pulling or cutting out the weeds. After fruiting, the beds should be cleaned out and the runners be kept in subjection until the close of the growing season.

A palace poultry car has just been put on a Western railroad for the shipment of live poultry to the Eastern markets. The claims for this car are that there is less likelihood of suffocation, and that with the improved system of feeding there is less shrinkage in weight and the advantage of holding the poultry for market.

Rapid Transit.

H. C. Barkley & Co. received yesterday a large shipment of boots and shoes from Boston. The goods came by way of the Kanawha Dispatch, and were just six days out from Boston.

COMMONWEALTH'S ATTORNEYS.

The Con. Con. Takes the Back Track Again—How the Matter Now Stands.

There was a hot fight in the Constitutional convention yesterday over the motion to reconsider the action abolishing the office of Commonwealth's Attorney. The motion finally prevailed, and the section was then amended. As expected, the convention reversed itself. The section as passed yesterday reads as follows:

"Section 1. A Commonwealth's Attorney for each Judicial district and a Circuit Court Clerk for each county shall be elected, whose term of office shall be six years, also a County Court Clerk and County Attorney, Surveyor, Coroner and Jailor for each county, whose term of office shall be the same as that of the Judge of the County Court. The compensation of Commonwealth Attorneys shall be by salary, and such percentage of fines and forfeitures as may be fixed by law, and such salary shall be uniform in so far as the same shall be paid out of the State treasury, and not to exceed the sum of \$500 per annum, but any county may make additional compensation to be paid by said county. Should any percentage of fines and forfeitures be allowed by law, it shall not be paid except on such proportion of the fines and forfeitures as have been collected and paid into the State treasury, and the salaries and fees of other officials named in this section shall be fixed by law."

After this was disposed of, an extra section was adopted giving the Legislature authority to abolish the office of Commonwealth's Attorney after six years and establish the County Attorney system.

Such is the final disposition of this much-vexed question.

Coal and Chalk at Burtonville.

J. R. Word, writing from Burtonville to his brother of the Mt. Olivet Advance, says: "Since writing you a week or so ago I have actually handled some of our reputed cannel coal, and also seen it burn.

A few small pieces would be sufficient to make an ordinary heating stove hot, and the smoke from the burning is hardly discernable. Ordinary coal, as you know, will flicker and smoke when the stove door is opened, while this coal will blaze brightly, and one has to observe closely to discover any smoke at all. The water from recent rains has greatly retarded the work in making investigations, but those interested claim that while going slowly they go surely, that time is only needed to develop one of the finest cannel coal mines in the world. S. I. Dodd, tobacco man and speculator, is furnishing everything needed for the work, 'without money and without price,' expecting his reward to come hereafter in booming coal miners for the mountains, and street railways and electric lights for Burtonville.

"Herein you will also find a specimen of chalk that has been discovered near here. And I am assured by Mr. Dornin, the gentleman upon whose land it was found, that it was plentiful.

The Trouble at Mt. Olivet.

Says the Mt. Olivet Advance: "The city dailies created quite a sensation in reporting the anonymous letters received by County Attorney Osborne threatening him with great bodily harm and destruction to property. While it is true that he received two such letters, we deplore the fact that it has been given such widespread notoriety for it can certainly do us no good to be thus advertised and, on the other hand, cannot be otherwise than detrimental to our good name. A weak-kneed drummer came here a few days ago, and stopped at the Carpenter House for dinner, but through fear left in the afternoon for Germantown to spend the night, not caring to risk his life over night in our town."

Major Norton's Death.

Mention was made yesterday of the illness of Major W. A. Norton, formerly of this city. A copy of the Detroit Tribune received later in the day by friends of Mr. Norton says he died Wednesday, March 11th, at 3:30 p. m. He was born at Newark, N. J., fifty years ago. During the war he served with distinction in the Union army. He had been ill ever since he left Maysville. His wife and seven children survive him.

Railroad News.

The earnings of the Chesapeake and Ohio for the first week of March show an increase of \$19,206.55 over those for the corresponding week of last year. The figures are:

1891.....\$ 150,738 67
1890.....131,532 12
Increase.....\$ 19,206 55

Real Estate Transfers.

Commercial Club Election.

At the regular annual meeting of the Maysville Commercial Club, held at the club rooms last evening, the following officers were chosen for the ensuing year:

President—W. LaRue Thomas.
First Vice President—F. S. Owens.
Second Vice President—W. H. Cox.
Directors for one year—R. L. Browning, W. W. Ball, C. C. Dobyns, J. L. Browning, J. Jas. Wood, J. H. Hall.
Directors for two years—E. A. Robinson, Thos. A. Davis, T. A. Keith, H. C. Sharp, M. C. Russell, J. L. Salisbury.

The following were appointed to attend the tobacco sales in this city next week: F. S. Owens, J. L. Salisbury, J. Jas. Wood, C. C. Dobyns, Thos. A. Davis. On the adjournment of the club, the new Board of Directors met and elected the following officers:

Secretary—W. R. Warder.
Corresponding Secretary—John C. Adams.
Treasurer—John Duley.

White, Judd & Co's Rebus.

In the competition for the correct answer to the furniture rebus of White, Judd & Co. the successful parties were: First, Dr. J. P. Phister, who gets the gent's chair; second, Miss Alice S. Wheeler, who gets the plush chair, and third, Miss B. Glasscock, of Mt. Carmel, who will receive the carpet sweeper. The parties will please call and obtain the goods. Following is the correct solution:

No. 1.—This Rebus is to inform the Public that we are prepared to fill orders for Furniture; home-made or foreign, rich in design, of elegant workmanship and latest styles, or of plain finish, among which may be noted Bureaus, Tables, Arm Chairs, Divans, Hat Racks, Wash Stands, Book Cases and a miscellaneous stock of Cabinet Ware.

The company is conducted on a little different plan from that of the building and saving associations, but carries on a business of the same character.

A Good Law.

In Switzerland a Sunday law has been enacted applying to all railroad, steamboat and tramway companies and post-offices. Working time must not be more than twelve hours a day, even on occasions of increased traffic. Engine and trainmen must have at least ten hours of unbroken rest, and other employees nine hours. They must also have fifty-two days off yearly, and seventeen of these must be Sundays. No reduction in wages is to be made for such rest days. All freight traffic on Sunday is prohibited except live stock.—Scientific American.

Notice.

Having engaged my services for the season of 1891 as manager and trimmer in the millinery department of the Bee Hive, I am prepared to dispose of my present stock and fixtures at a sacrifice. All persons indebted to me are requested to call and arrange for an immediate settlement.

DR. WM. BOWMAN, of Tollesboro, United States Consul at Tien-Tsin, recently furnished to the State Department an interesting report on the great inundation in North China, caused by the Pei Ho river. Tien-Tsin is situated on the Pei Ho and in the midst of the overflowed district. The report gives a graphic account of a devastation beside which the worst Mississippi floods fade into insignificance.

THE sacrament of the Lord's supper will be administered in the First Presbyterian Church to-morrow morning at 11 o'clock. During this service those who have united with the church during the past week will make a public profession of their faith, and a special sermon will be preached to those who have recently been added to the membership of the church. Services in the evening at 7:30.

THE Western Sportsman says: "Uncle Jack Hook, of Paris, has moved his entire string of trotting horses to Maysville, and will remain there until the campaign opens, when he will start out with a number of 'has-beens' and some that are going to be this year. Dr. Sparks, 2:20½, is in the pink of condition, and when the old familiar expression, 'take care,' of Uncle Jack's is heard, coming down the 'home stretch,' we expect to chronicle the record of the Doctor in 2:15. Success to Uncle Jack, wherever he may be."

THE Republican State Central Committee has issued a call for a meeting at the Phoenix Hotel in Lexington Thursday evening, April 2, for the purpose of fixing the time and place of holding the State convention for the nomination of a candidate for Governor and other officers. The committee will likely at the same time elect a member of the Republican National Committee to fill the vacancy caused by the death of Colonel W. C. Goodloe. The men most prominently mentioned for this position are Judge Denny, Colonel Bradley and Congressman Wilson.

THE Cincinnati Enquirer had the following interesting item yesterday about a gentleman well known here: "Colonel W. Rees Dobyns, of Proctorville, Ohio, once a popular resident of the Gibson, is in the city for a business visit. He is one of the heirs and trustees of the immense Armstrong estate, and has to leave his farm now and then to look after his interests here, especially when the quarterly cutting of coupons begins. Colonel Dobyns has not been much in politics since Hezekiah Bundy, father-in-law of ex-Governor Foraker, beat him by a half vote for delegate to a National convention. This happened because a delegate to a local convention couldn't catch his horse which was loose in a pasture, and the delegate stayed at home."

WRECK RUMORS

The Air Full of Them This Morning, But They're Exaggerated as Usual

One could hear talk of railroad wrecks and steamboat disasters on most every hand this morning.

One report was that the C. and O.'s eastbound F. F. V. was wrecked last night at South Portsmouth and three persons were killed.

Another report placed the number of killed at twenty.

And it was told that the steamer Telegraph had struck an obstruction and gone to the bottom of the Ohio.

The many reports were run down and here's the result: The F. F. V. was not wrecked at all. The rumor started from the fact there was a "rear-end" collision of a couple of freight trains just east of the Maysville fair grounds, or rather section No. 2 of a freight ran into section No. 1 while the latter was at the coaling station. Only one person was hurt—a fireman, name not learned, was slightly injured about the shoulder. But little damage done, and the track was soon cleared.

And there was no steamboat disaster either. The Telegraph struck the bank above Vanceburg early yesterday morning, during the heavy snow storm, and badly sprung some of her timbers, but the Bostona and Sherley arrived in time to take off part of her freight, and prevented her from sinking. She was able to continue her trip to Cincinnati where she will be repaired.

LADIES, if you want to be healthy and handsome, an exchange advises you to eat and drink the following good things: Soft-boiled eggs, hominy, California figs, asparagus, lettuce, toast, brown bread, bread and milk, lamb, fish and apples, cocoa, hot lemonade and bouillon.

CHURCH OF THE NATIVITY—Services to-morrow at 11 a. m. in the Cox Building. The holy communion will be celebrated. The Bishop of the Diocese will visit the parish on the third Sunday after Easter, April 19th, to hold confirmation. It is expected that the church will be reopened at that time.

SCOTT M. E. CHURCH, Fourth street. The services to-morrow will be the last before conference. The pastor will occupy the pulpit both morning and evening. Subject at 11 a. m.: "Submission to God;" at 7:30: "Acquaintance With God." All are cordially invited.

JOSEPH COURTNEY, Pastor.

THE literary club organized by a number of Maysville's clever young ladies under the title of "Over the Teacups" was entertained on Thursday afternoon, at the pleasant home of Dr. Frazee. Music and literature was the pleasure of the bright company assembled—topic "Edgar Allen Poe." The hospitality of the graceful hostess added much to the enjoyable occasion. A delightful luncheon was served. Covers were laid for ten at table and "over the teacups" dainty bon-bon passed from guest to guest, with sparkling wit and repartee. At the conclusion of the luncheon each guest was handed an exquisite half-blown white rose.

MINER'S MAXIMS!

A Bad Workman Quarrels With His Tools.

Likewise people find fault with cheap and "bargain" shoes which do not wear well.

Miner's Shoes are both reasonable and of excellent wearing qualities.

Every one knows that breaking in a young span of Shoes is ecstasy, or would be, if fitting Shoe dealers could be found.

Miner prides himself on his ability to give a perfect fit.

We do not give as an inducement "a pair of crutches" with every pair of Shoes, but we do give our guarantee.

A man is held by his associates according to his worth.

In like manner, the reputation of Shoes goes up or down, according to their worth in value.

When you have found a faithful friend you do not cast him aside when you find no immediate use for him, do you? If you do, you are wrong.

When, by actual experience, you find that Miner's Shoes substantiate all that is said of them, do not let it rest here, but pass the good word around among your friends.

Our experience, in the merits of Shoes, is derived from the fact that we have been for the last

REVIEW OF TRADE.

R. G. Dun & Company's Weekly Report of Business.

MONEY MARKET DISTURBED.

Foreign Influences Somewhat Affect Trade at New York—Farm Products Advanced, and the Prospects for Farmers Was Never Better—State of Other Trades.

NEW YORK, March 14.—R. G. Dun & Company's weekly review of trade says: Foreign influences have again disturbed the money market a little. The prospect for new railroad building and consequently for rail production is not helped by the monetary situation, and stocks have been considerably weakened. But there is more active speculation in breadstuffs, pork products and cotton, which have all advanced, and the outlook for farmers has rarely been better at this season than it is now. Of the great industries, nearly all are expanding and employing labor fully, but the coke strike and other causes have produced a remarkable shrinkage in the output of iron.

The weekly output of all furnaces in blast March 1 was but 134,526 tons, against 146,050 Feb. 1, a decrease of 15 per cent in a month. Belief that the coke strike will soon end in cheaper supplies of fuel, while the railroads west of Pittsburgh have just agreed to reduce their charges, prompts consumers to expect lower prices soon, and though the market here has a better tone, northern No. 1 is quoted as low as \$17 and southern at \$16.25. The prospects for the building trades is rather dull here, but at other cities, particularly at the west, it is remarkably bright. The wool manufacture is doing remarkably well, though the prices of goods do not advance: the mills engaged on dress goods and knit goods are especially active, and the worsted works are on full time with fair prices. In the boot and shoe industry shops are fairly employed.

Reports from other cities are fairly favorable. Boston notes more buyers of boots and shoes. Crude rubber is firm but not active. Wool moves steadily, lumber is fairly active and coffee is strong. At Philadelphia the wool trade is active. The hardware trade is good. In jewelry, paints, liquors, tobacco and harness and saddlery trade is rather quiet. At Chicago the dry goods sales considerably exceed last year's, and in clothing and boots and shoes the situation is the same. Wool receipts are larger, wheat much larger, and cured meats show an increase; and hides, oats and rye are about the same, but in flour, corn, barley, lard and butter decrease appears, and in dressed beef a decrease of half. Pittsburgh notes no change in iron or rails, but some improvement in window glass. At Cincinnati whisky advances with good sales, and sales of tobacco are heavy. Cleveland notes hopefulness for spring trade, and Detroit observes a prospect for great activity in building.

West of Chicago heavy snows and bad weather have had much influence impeding the lumber trade.

Reports from the entire south are a shade brighter because cotton has recovered slightly in price.

The business failures during the last seven days number for the United States 239, and for Canada 34, or a total of 273, as compared with a total of 265 last week. For the corresponding week of last year the figures were 252.

DRIVEN TO SUICIDE.

A Newly Married Woman Prefers Death to Living With Her Husband.

INDIANAPOLIS, March 14.—Last October Kate Weaver, the daughter of Mr. and Mrs. George Weaver, prominent people of this city, married Lemon E. Rhinehold, a young lawyer, with a good practice. Mrs. Rhinehold was a handsome brunette, accomplished, and a great favorite with all. They settled in their own cozy home on Bellefontaine street, and life seemed full of promise for the young couple.

Lately, however, the neighbors have shaken their heads ominously, and intimated that a l was not well with the couple. At 10 o'clock Thursday night, pedestrians passing the Rhinehold house heard a pistol shot within. An entrance was forced and Mrs. Rhinehold was found dying from a wound in the breast—she had taken her own life while alone in her home.

The following letter, written by her just before firing the fatal shot, reached The Indianapolis News yesterday morning:

328 BELLEFONTAINE STREET.
When this reaches you I will be out of this world. I could not stand it. I had a bad, low husband, who beat and cursed me and tried to make me believe I was unfaithful. I could not stand it, so I took my own life.

BRUTAL MURDER.

Mrs. Joseph Graham Killed by Elmer Johnson Near Caldwell, Ohio.

CALDWELL, O., March 14.—Mrs. Joseph Graham was murdered by Elmer Johnson, a drunken brute, at Olive Thursday night. Joseph Graham has a store one mile east of this place and left it in charge of his wife and son, aged 17, while he went to Zanesville Thursday.

About 7:30 p. m. Johnson went into the store drunk, and took a lead pencil from the boy. Nothing was said until the boy needed the pencil, and asked Johnson for it. Johnson began cursing the boy. Mrs. Graham asked him to go out. He refused. She took him by the arm to lead him out, when he whipped out his knife and cut her throat, causing death in twenty minutes. Johnson also cut one McThors in four places, not seriously, who tried to take the knife from him. The murderer was arrested and placed in jail.

LOGANSPOUT, Ind., March 14.—On Wednesday evening the family of John Geppinger after partaking of some moldy cheese at supper were taken violently sick. Yesterday morning Miss Lizzie Woods, one of the family, died in horrible agony. The remaining four members of the family, although improved, are by no means out of danger.
